Holly:

Thanks for the call yesterday to discuss the edits needed in the WP.

Please also include one additional edit in Section 3 that mentions continuous differential pressure monitoring. Please add text indicating the datalogger will be set to record data every 5 minutes and the name/model of the equipment that will be used.

As we discuss the edits are minor, so I expect a quick turn around and submittal of the revised text before end of next week.

Please let's have a quick call to discuss coordination with EPA schedule to perform oversight.

Thank you,

Lilian Abreu, PhD

Importance: High

Holly,

Please proceed with scheduling and performing the sampling activities as soon as possible, following the SAP you submitted. Please coordinate dates with EPA for oversight. I plan to ask Mathew Plate to do the oversight, if his schedule allows, as he has done that in the past.

I will ask you to do a few editorial corrections to the SAP but this editorial revision do not interfere and shall not delay the field activities.

Let me know If you are available for a quick call (30 min the most) tomorrow (1/19) after 2:30 PM, or Friday (1/20) between 10 AM – 2PM, and I can walk you through the editorial corrections to issue a final approval letter.

Thank you,

Good morning Joshua and Holly,

Please reply to this email with an update of the VI Work Plan. It was due last 1/4/2023 and I haven't received it yet.

Thank you,

Lilian Abreu, PhD

Holly,

Thank you for submitting the Northrop Grumman Systems Corporation (Northrop Grumman) Vapor Intrusion Work Plan Addendum #3. EPA requests the Addendum be revised to improve its readability and to address the technical comments presented in the letter attached.

Let me know if you have any questions.

Sincerely,

Lilian Abreu, PhD
